cover***

PLUNGE POOL DELIVERY

In most cases the pool can be rolled into position.

Our service provides two crew to assist in getting pool into position

For difficult sites we will request you to provide able bodied persons to assist

If a crane is required we will assist with strapping and slings. Crane at owners cost

The height of the pool is the width when rolling so use this measurement to check access

DELIVERY NSW

Calculated from Narellan Sydney 2567

HANDLING FEE

\$300

DELIVERY FEE CHARGE PER KM FROM
POSTCODE 2567 ONE WAY
(Max distance 350Km)

\$2 Per KM

Delivery Calculation Example:

Handling Fee = \$300

Plus distance in Km's from your site to postcode 2567

Example (215Km one way) = $215 \times \$2 = \430

\$300 Handling + \$430 Delivery

Total freight cost = \$730

APPROVALS

Check with your local council regarding approvals required

Will require pool fencing to Australian standard AS1926.1

Generally a DA or complying development is required

Owners responsibility and cost for this aspect of the project

Your new pool will require a solid level flat base to sit on

Generally a concrete slab is the best option 100mm thick

Crusher dust or pavers can also be used but must be stable

The base will show thru floor of pool if uneven

Warranty is void if base is in adequate

Pools must be earthed using earth tab welded on pool
