STAINLESS STEEL ROUND & SLIMLINE TANK DELIVERY DELIVERY CHARGES NSW

DELIVERY CONSIDERATIONS

1. Please consider and make us aware of any obstructions such as powerlines, bridges, low overhanging tree branches, gates or fences that may impede your delivery.
2. Weather – please consider site conditions during or after heavy rain and wind as this may make the delivery very difficult and unsafe to carry out.
3. Alternative access to site, if you require to use neighbouring access to your site for delivery we request this arrangement is approved with the neighbour prior to the delivery day
4. Please ensure your tank base has been prepared correctly
5. Please consider your tanks stability once delivered, empty tanks can blow over if not installed so adding a few centimeters of water can be all it takes to ensure your new tank stays safe.

If you would like to discuss your project in more detail please call or email us
